### Enrollment Center:

#### Deadline to Request an S/U/W Grade or Withdraw from the College

**Monday, November 29** is the last day to request an S/U (Satisfactory/Unsatisfactory) grade or withdraw from a class (W grade). November 29 is also the **last day to withdraw from the College** with X grades (applies to all full-term courses). Mod courses differ in deadlines – refer to the online [Student Calendar](#) for more information.

Please be mindful of the possible implications for transferability of S/U grades. Both grading options may also impact eligibility for Excelsior. Please check with Financial Aid for questions related to Excelsior.

- **Withdraw from a Class** – To drop a course and receive a W (withdrawal) grade as a final grade, complete the electronic - [Drop or Withdraw from a Course](#) form.
- **Withdraw from College (All Classes)** – To withdraw online from the college and receive “X” grades for **ALL** of your current courses, complete the electronic [Withdrawal from College](#) form. If you completed any modular courses, you will receive the grade earned and “W” grades will be applied to all other college coursework.
- **Satisfactory/Unsatisfactory (S/U) Grades** – To elect to receive a final grade of S/U in a course, students must submit the electronic [S/U grade request](#) form which will also require approvals from the course instructor and the student’s advisor. Selecting the S/U option may be beneficial to students in certain circumstances; however, students should be aware of the impact on course loads in future semesters, financial aid/academic standing implications, and the transferability of S/U grades.

If you have any questions, please email [records@niagaracc.suny.edu](mailto:records@niagaracc.suny.edu) or stop by the Enrollment Center desk in the A-building lobby.

**Eat the Rainbow!**

Aim to eat foods of as many (natural!) colors as you can each day.

★ The bright color in fruits and vegetables comes from phytonutrients, each of which has their own beneficial properties. Eating a variety of colors helps ensure you get adequate amounts of all essential nutrients that keep your body properly functioning and protected against disease. ★
