

Week of March 20, 2023

A weekly newsletter with news & information for Niagara County Community College Students

Welcome Back!

Summer & Fall 2023 Course Registration Opens Today!

If you have not yet met with your advisor, refer to the Monday, February 27 email from the Student Success Center with your advisor name, contact information, and your registration date. Then schedule an appointment with your advisor ASAP!

If you have met with your advisor and are ready to register, you can view Summer & Fall 2023 Course Offerings at <https://niagaracc.suny.edu/course-offerings.html>.

Need more information?

- Visit the Current Student Registration <https://www.niagaracc.suny.edu/registration-records/csreg/> webpage for more information.
- What does it mean to be Face-to-Face, Online, or Hybrid? Go to <https://www.niagaracc.suny.edu/onlinelearning/methods> to learn more about instructional methods.
- Use the Student Profile in Banner Web: Go to the Registration tab in Banner Web <https://ncccbanner.itec.suny.edu/ssomanager/c/SSB> to find detailed information about your academic record, advisor, holds, registration date (i.e. first day you can register for classes).
- For additional information, check out the Records & Registration Office FAQ's at <https://www.niagaracc.suny.edu/registration-records/faqs/>.

If you are a Non-Matriculated student (not in a degree or certificate program), you can schedule classes in Banner Web for Summer 2023 starting at 2pm today, and for Fall 2023 on Monday, April 10. Go here for more information: <https://www.niagaracc.suny.edu/registration-records/register/>

Don't forget your Success Coach is here to answer your questions and provide registration help, in addition to being available to help you with anything you need or link you with the right office! Call, email, or come by! 716-614-6290, ssc@niagaracc.suny.edu, or Sanborn: Office D-102 (Learning Commons, next to Tim Horton's) and NFCl: Room 225. Hope to see you soon!

MEET YOUR PROFESSOR

Featuring Science Professor, Dr. Estelle Steiner

Come meet Dr. Estelle Steiner, as she discusses...

- Her interest in the sciences
- Her courses
- Her educational path from undergraduate to PhD
- Her areas of research
- Her triumphs
- Her obstacles

And much more!

Courses include Human Biology, Anatomy & Physiology, and Contemporary Environmental Issues

Wednesday, March 29 | 3:00pm
Located in the Honors Lounge, E225

Refreshments will be served.

Keynote Speaker Dr. Fabio Escobar Presents

Sapere Aude: The Role of Expertise in Human Debate

March 30, 2023 | 3:30PM | Room E140

One of the perennial concerns of philosophy is the definition of reality. As philosophers investigate its nature or structure they quickly run into concerns of an epistemological nature. That is, philosophers not only want to know what reality is, we also want to know how we know what reality is. One way to work through this is by checking to see if those statements "correspond" to reality. The formal check of whether a statement is "true" or "false" in such a model depends on the proper correspondence between what we say, think, or believe and what reality "really" is. When we set out to measure this alignment, furthermore, we sometimes rely on other individuals

who may have insight into the topic: experts. This shortcut to knowledge relies on trust and on a simple intellectual division of labor; we can't all be experts at everything, after all. But what happens when that trust disappears and the division of labor is not respected? What does a conversation look like that rejects expertise? What do we do when no agreement or common ground is possible or desired? This presentation will assess the role of trust in expertise from an epistemological perspective, drawing on some classic debates in the history of philosophy as well as some recent debates in social networks.

About Dr. Fabio Escobar

Dr. Fabio Escobar has a B.A. in Political Science and Philosophy from California State University and a Ph.D. in Philosophy from the University at Buffalo. In 2015 he received the SUNY Chancellor's Award for Excellence in Professional Service and in 2014 he received the Erie Community College Student Government Association Faculty Appreciation Award. He has also served on hospital ethics committees and institutional review boards. His philosophical research focuses on metaphysics and the structure of human experience, a field traditionally known as phenomenology and which serves as a foundation for arguments about the structure of reality. His overall goal is to develop a comprehensive metaphysical model that transparently and systematically assesses human bias. His work closely tracks developments in critical theory, otherwise known as the Frankfurt School of Philosophical Research.

This presentation is open to the public. Emeritus faculty reception with refreshments to follow in FRCAE, D104.
