

NCCC Foundation Scholarship Process Overview

History

In 1987, the NCCC Foundation was created with a mission to provide student scholarships and ensure individuals would have access to higher education in Niagara County. Since that time, volunteers have raised the necessary funds and established numerous scholarships named after generous donors. More than twenty years later, nearly \$2 million has been awarded to students pursuing their educational goals at Niagara County Community College.

Scholarship Award Process

A variety of scholarships are offered for both the fall and spring semesters for incoming and current NCCC students. The Scholarship committee selects recipients based on established criteria as well as scoring system. The funds to award scholarships are determined from the interest generated on the Foundation's endowment. Additional donations received from the community, as well as proceeds from the annual Scholarship Gala Dinner, enable supplementary awards. The availability and dollar amount of scholarships may vary from semester to semester.
